3. Android Application Development

- **Institution:** SLIIT CITY UNI
- **Details:** Designed the frontend using Figma and Android Studio. Integrated Firebase for backend functionality.

4. Java-Based Application Development

- **Institution:** SLIIT CITY UNI
- **Details:** Designed and developed a robust Java application with core functionalities.

5. E-Commerce Website Development

- **Institution:** SLIIT CITY UNI
- **Details:**
 - Created a platform for a business.
 - Technology used: HTML, CSS, JavaScript, PHP, MySQL
 - Hosted locally on a XAMPP server

SUMMARY

Passionate and dedicated IT undergraduate with experience in UI/UX design, web development, and mobile application development. Proficient in tools like Figma and Adobe Photoshop, with a strong understanding of front-end technologies such as React, PHP, HTML, and CSS. Skilled in creating user-centered designs, conducting research, and translating concepts into functional interfaces. Adept at collaborating with teams, problem-solving, and contributing innovative ideas to deliver seamless and engaging user experiences.

Truthfully,

Ragshahini Navarathna
